*Ailments Delay
Dengler Wedding*

CPYRGHT

PACIFICA, Calif., Oct. 3 (UPI)—Navy Lt. Dieter Dengler, the only American to escape from a North Vietnamese prison camp, postponed his wedding today because of medical problems resulting from 27 days of hiding in the jungles.

Dengler, 28, and his former college sweetheart, Marina Adamich, had planned to wed Oct. 16.

But Dengler said tests by his doctors showed "things from my jungle experience keep occurring." He added that "it is simply going to take more time to get rid of them."
